With an all-new powertrain, standard quattro® all-wheel drive, bold new exterior design and improved interior with thoughtful functionality and many technology and connectivity enhancements, the Q3 offers a strong entry to the Audi brand. All-new powertrain and standard quattro® all-wheel drive The all-new Q3 comes standard with a robust new 2.0-liter TFSI® engine, which generates 228 horsepower and 258 lb-ft of torque, an increase of 28 additional horsepower and 51 lb-ft of additional torque over the previous generation. The new four-cylinder engine is mated to an eight-speed Tiptronic® automatic transmission, which provides quick, smooth shifts, allowing the Q3 to accelerate from 0-60 mph in 7.0 seconds. Every Q3 is now standard equipped with quattro® all-wheel drive, offering high-precision and dynamic handling through active torque distribution to both axles. Electronic wheel-selective torque control can add additional traction across each axle through individual wheel braking application. The Q3 also features a redesigned suspension to provide a comfortable yet agile ride for long distances or sporty drives. Standard on all Q3 models, Audi drive select with five different drive modes - comfort, auto, dynamic, offroad, and individual - allows the driver to choose the option that best meets their driving situation and handling preferences. Inspired exterior design with SUV proportions The Q3's fresh, athletic face reflects the brand's new SUV design language as introduced on the Audi Q8. The all-new Singleframe grille with an octagonal design, features vertical chrome slats, emphasizing the vehicle's more substantial front end. New, more aggressive headlights flow from the grille into the strong shoulder line, which integrates seamlessly with the wide, pronounced wheel arches and underscores the vehicle's standard quattro all-wheel drive. At the rear, standard LED taillights echo the horizontal architecture from the front of the vehicle. Supported by an integrated roof spoiler, the steeply inclined D pillars compliment the vehicle's athletic appearance and give the Q3 a distinct SUV stance. Standing 1.5 inches taller, 3.8 inches longer and nearly an inch wider than its predecessor, the new Q3 is more substantial on the outside and offers more useable passenger and cargo space inside. A total of eleven colors are available for the Q3, including the new Chronos Gray metallic and Pulse Orange on Q3 quattro and Q3 S line quattro models. Also new, Turbo Blue is offered on Q3 S line quattro models. Additional exterior design highlights include: Two exterior styling kits are available for the all-new Q3: Q3 quattro comes standard equipped with a full-paint finish exterior, and 18-inch 5-arm design wheels with all-season tires. Q3 S line quattro comes standard equipped with a full-paint finish S line exterior including S line front and rear bumpers, side sills, and badging, and 19-inch 5-twin-spoke design wheels with all-season tires. 20-inch 5-twin spoke module design wheels with summer performance tires are available. LED headlights and LED taillights with dynamic rear turn signals are standard equipment, with available full LED headlights including a unique daytime running light signature. Standard high-gloss Aluminum window surrounds and roof rails. Revolutionary interior seamlessly integrates technology The interior design of the Q3 takes advantage of the Q3's all-new design architecture, built to showcase the precision and seamlessly integrate more useable technology. The interior controls are angled toward the driver, creating a driver-centric cockpit. The central elements are a standard 10.25 inch (available 12.3 inch) digital instrument cluster, alongside a standard 8.8 inch (available 10.1 inch) MMI® touch response display. These control the infotainment functions and seamlessly blend into the black panel stretching across the dashboard. Acoustic feedback helps make the touchscreen more usable when the vehicle is moving, and available handwriting recognition with whole-word input offers an easy way to enter information such as telephone contacts or navigation destinations. With its logical and flat menu structure, the all-new MMI system allows easy access to various vehicle functions. Natural-voice control helps turn the Q3 into an intelligent travel assistant. Drivers can speak both commands and questions, to which the Q3 will provide comprehensive feedback through on-board stored data or available information from the cloud. Placed below the MMI touch response system, the climate controls are ergonomically located for ease of use, along with centrally located standard USB-C and USB-A data and charging ports and the available Audi phone box, which provides inductive charging for compatible smartphones as well as a signal booster. The Q3 is the only vehicle in its competitive segment to offer standard heated leather seating surfaces and a standard panoramic sunroof. New available features such as Alcantara interior elements along the dashboard and door panels, S line® sport seats with contrast stitching, and customizable ambient interior lighting give Q3 buyers more interior personalization options. Rear seat passengers can also enjoy improved second row comfort, with a standard 40/20/40 split folding, sliding and reclining seatback offering more overall room than the outgoing model, as well as two standard USB-A charging ports. The rear cargo area is not only larger than before, it's also more flexible. An adjustable load floor can be set at two different heights, allowing the driver to choose between larger under floor storage or more vertical space in the cargo area. Additional interior highlights include: Standard three-spoke multifunction steering wheel with available shift paddles. Standard panoramic sunroof adds light to the cabin. Standard heated eight-way power driver seat with four-way power lumbar support for driver. Standard dual-zone automatic climate control. Available Aluminum Spectrum inlays, Brown Gray Natural Wood, matte inlays, or Brushed Aluminum, matte inlays. Available Sport Interior package (available on Premium Plus and Prestige trims of the Q3 S line quattro) enhances the vehicle's already sporty interior with S line® sport seats in Black or Rotor Gray leather with contrast stitching, steering wheel shift paddles and Brushed Aluminum, matte inlays. With the Sport Interior package, customers can also choose the unique Alcantara® Interior package, orange which enhances the unique design of the interior with vibrant orange Alcantara accents on the dash and door armrests. Infotainment highlights include: Standard 10.25 inch digital instrument cluster or available second generation Audi virtual cockpit featuring a 12.3 inch display that offers HD resolution of 1920 x 720 pixels. The Audi virtual cockpit helps to enhance the infotainment and navigating experience through large Google Earth™ imagery or 3D city maps (requires Audi connect PRIME subscription) supported with 4G LTE (where available). Available Audi phone box connects smartphones with the vehicle's antenna and provides a signal boost, and can charge compatible phones inductively. Standard Audi smartphone interface provides Apple CarPlay® and Google™ Android Auto integration for compatible devices, making smartphone interactions easier for the driver. When equipped with MMI Navigation and Audi connect, the Q3 is capable of wireless Apple CarPlay®, instead of relying on a USB cord, for added convenience. Available Bang & Olufsen® Premium 3D Sound System helps deliver nearly true-to-life 3D surround sound through 15 speakers, powered by the 16-channel amplifier with an output of 680 watts. Advanced Driver Assistance features The all-new Q3 brings a full suite of newly standard and available driver assistance features, designed to help drivers confidently navigate the road and traffic. Driver Assistance features include: In the case of an impending collision, standard Audi pre sense® basic can intervene to help prepare the vehicle for impact. This process includes beginning to close the side windows and panoramic sunroof, pretensioning the front safety belts. Standard Audi pre sense® front uses a camera to monitor the area in front of the vehicle and provides visual and acoustic warnings to help alert the driver to potentially hazardous situations. Available Audi side assist with lane departure warning provides blind spot monitoring via LED indicators on the exterior mirror housings at speeds above 9 mph. Available lane departure warning (as part of Audi side assist) helps to keep the driver within the driving lane through corrective steering intervention and adjustable wheel vibration, at speeds above 37 mph. Available Rear cross traffic assist (as part of Audi side assist) supports the driver when reversing out of a perpendicular parking space. Indicator arrows in the MMI® display can help inform the driver of approaching vehicles, and in critical situations, a warning tone and brake jolt can be applied, prompting the driver to stop the vehicle. Available Adaptive cruise control with stop & go helps maintain set distance from the vehicle in front, including braking and accelerating as needed, between speeds of 0 to 95 mph. Available Parking system plus helps make parking easier with front and rear proximity acoustic parking sensors, when the vehicle is in both reverse and drive, under 6 mph. Available for the first time on the all-new Q3, Top view camera system uses four wide angle 360 degree cameras to record the entire area immediately surrounding, projected on the MMI screen, allowing the driver to see "around" the vehicle to help with maneuvering in tight spaces. Available for the first time on the all-new Q3, Park steering assist can assist the driver with parallel and perpendicular parking by taking control of the steering while the driver accelerates, shifts gears and brakes. Pricing detail: Model year 2019 Q3 starting manufacturer suggested retail prices: Model Engine Premium Premium Plus Prestige 2019 Audi Q3 quattro 2.0-liter TFSI® \$34,700 \$37,800 2019 Audi Q3 S line quattro 2.0-liter TFSI® \$36,000 \$39,100 \$42,900 \*Prices above exclude destination charge (\$995), taxes, title, options, and dealer charges. Dealer sets actual price. For more information, visit [www.audiusa.com](http://www.audiusa.com) - End - ABOUT AUDI OF AMERICA Audi of America, Inc. and its U.S. dealers offer a full line of German-engineered luxury vehicles. AUDI AG is among the most successful luxury automotive brands, delivering about 1.612 million vehicles globally in 2018. In the U.S., Audi of America sold nearly 224,000 vehicles in 2018. 2019 marks 50 years for the brand in the U.S. Visit [audiusa.com](http://audiusa.com) or [media.audiusa.com](http://media.audiusa.com) for more information regarding Audi vehicles and business topics. This information and any vehicle specifications are preliminary and subject to change. Driver assistance features are not substitutes for attentive driving. See Owner's Manual for further details, and important limitations. Always obey local speed and traffic laws. Not all Apple CarPlay or Android Auto features available on all operating systems. Message and data usage rates apply. These features require compatible device, operating system, and mobile apps. See mobile device and app providers for terms and privacy. \*Android, Android Auto, Google Play, and other marks are trademarks

of Google Inc. "Apple CarPlay" is a trademark of Apple Inc. Always pay careful attention to the road, and do not drive while distracted. Connect PRIME services are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. Trial or paid subscription required. Connect PRIME services require vehicle cellular connectivity and availability of vehicle GPS signal; certain services collect location information, see Terms of Service for information about how to disable. Connect services are subject to technologies remaining commercially available, such services are not guaranteed, and may not be available after 2021 for equipped MY17-20 vehicles. See Terms of Service, Privacy Policy, and other details at and terms. The Wi-Fi hotspot feature is intended for passenger use only. Wifi feature is provided through Connect PLUS. Connect PLUS features and technologies are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. See materials provided by wireless carrier for terms, privacy, data security details. Returning devices connect automatically and use plan data unless hotspot is removed from device settings. MMI Navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destination and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI Navigation plus. Starting MSRP of \$34,700 for a 2019 Audi Q3 with 2.0-liter TFSI® engine. Price excludes destination, taxes, title, other options and dealer charges. Dealer sets actual price. Always ensure that your vehicle is equipped with appropriate tires and equipment and always adjust your speed and driving style to the road, terrain, traffic, and weather conditions. See Owner's Manual for further details, and important limitations. Summer performance tires may ride less comfortably, make more noise, and wear more quickly than other choices. To avoid tire, rim, or vehicle damage, it is important that inflation pressure is regularly checked and maintained at optimum levels. High-performance tires are designed for optimum performance and handling in warm climates and are not suitable for cold, snowy, or icy weather conditions. When driving during cold, snowy, or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter weather tires. Tires are supplied and warranted by their manufacturer.
